

# MFA KERA & BLACK HERITAGE

feat. Mike Russell

Welcome to the AfroSoul Journey with the charismatic singer performer & composer **Mfa Kera** also called "the Voice"!

Kera (of Creole descent from Madagascar) invited her high profile fellow musicians of the multi national Black Heritage for a live recording session in studio. **Mike Russell** from Washington DC (superb funk+jazz guitarist) & arranger keyboarder **Icekate Katemann** form the heart of the group.

The brand new release "**Humans Humans !**" offers a captivating and exciting mix of powerful original compositions in styles from throughout the Black Diaspora.

African rhythms and grooves, funky beats support beautiful melodies and bold themes and lyrics with a jazz and blues touch!

This release includes a very special remix of the title "Europe" from the great musician+producer Detroit based **Sadiq Bey**.

The prehistoric arrowhead on the front cover, found on a site in Senegal, is a present made to Kera when she was a kid.

This album is a Must for any fan of soulful, funky, jazzy Afro fusion, Afro Pop and more!!!

Dedicated to Master Drummer **Souleymane Toure** who transitioned before its publication.
